Annexure 2
CANTEEN REPORT FOR 2010

We started the year with a new canteen co-ordinator and many new enthusiastic volunteers willing to share their time. Throughout the year the numbers have fluctuated up and down and at many times the issue has been raised about closing the canteen one day and only operating two days per week. I believe this is an issue which needs to be addressed after new forms for 2011 have gone out and a roster has been drafted for Term 1.

Along with the new co-ordinator a new menu was set including a Summer and Winter specific menu which included specialty meals with tokens. I believe they were a success with the students and also assisted with time management in the canteen as you were focused more on one meal each day.

We were able to sustain prices for some items on the menu this year but unfortunately some have increased in price. This has been a slight issue as we do not seem to be getting across to parents or caregivers who order lunches that prices have increased.

Specialty Days were back on the menu. We had three successful paid specialty days in Term 1, 2 and 3 and a free specialty day for the children combined with the bi-centennial celebrations in Term 4.

Also this year we were able to source a new upright freezer which has been a great convenience for stock control and for shorter people not having to access the bottom of the tuckerbox freezer.

Finally, we were once again able to donate $2,000.00 to the library for the purchase of resources for students benefit for both current and in the future.

Thank you

Alaina Wright
Canteen Co-ordinator
2010
